

# Moraga-Orinda Fire District

## FIRE PREVENTION DIVISION

### FIRE PREVENTION DIVISION STANDARD

Subject:	Reference:	Approved by:
Aerial Pre-Plan Requirements	MOFD Ordinance 23-01	Fire Marshal Jeff Isaacs

### SCOPE

This standard describes the requirements for Aerial Pre-Plans. Aerial Pre-Plans are an overhead layout of a parcel containing structure(s) that identifies specific first responder-related items to assist in effective management of emergency incidents and for the protection of occupants, responding personnel, property, and the environment. The Pre-Plan shall be developed in accordance with a format approved by the District. Pre-Plan symbols shall comply with the format approved by the District.

### GENERAL

Aerial Pre-Plans may be required by the Fire Code Official in the following circumstances:

- For new developments in WUI-FA
- Two or more new structures that are over three stories
- When Fire protection plans are required
- New strip malls
- New commercial structures over 5,000 sq. feet

Aerial Pre-Plans **will not** be required in the following circumstances:

- New single family residences
- Substantial additions or alterations
